Bachelor degree of Science in Computer Science, Assumption University

Experiences during the last 5 years

2026 - Present : Chief Information Technology Officer, PTG Energy Public Co. Ltd.

2018 - 2026 : Head of Digital and Information Technology, Central Restaurants Group Co., Ltd.

Responsibilities

As Chief Information Technology Officer (CITO), leading enterprise technology, digital, data, and AI strategy to support business growth, operational excellence, and long-term competitiveness across PTG Energy's energy, mobility, and retail ecosystem.

Partnering with executive leadership and business stakeholders to align technology investments with corporate objectives, accelerate digital transformation, and unlock business value through innovation, data-driven decision-making, and modern technology capabilities.

Responsible for the organization's end-to-end technology landscape, including enterprise products and business platforms (ERP, HCM, retail, oil, finance, supply chain, and customer-facing systems), IT infrastructure, cloud platforms, cybersecurity, enterprise architecture, IT operations, service management, data and analytics, AI initiatives, and end-user support.

Key areas of leadership include:

- Enterprise Technology Strategy & Digital Transformation
- Enterprise Products & Business Platforms
- Retail, Energy, and Mobility Technology Solutions
- IT Infrastructure, Cloud Platforms & Modernization
- Cybersecurity, Risk Management & Technology Governance
- IT Operations, Service Management & End-User Support
- Data, Analytics & Artificial Intelligence
- Enterprise Architecture & Technology Standards
- Technology Innovation, Automation & Emerging Technologies
- Technology Organization Leadership & Talent Development

Driving the delivery of secure, scalable, resilient, and business-centric technology capabilities that enable enterprise growth, operational excellence, customer engagement, and continuous innovation across the organization.
